

Fair Civic Elections Pledge

**Fair Représentation
Vote équitable
Canada au Canada
Vancouver Vancouver**

Whereas fair and proportional representation of the full diversity of opinion in our communities is critical for democracy and good governance;

And whereas the municipal voting system in BC prevents the election of councils that accurately reflect the priorities of voters, and denies many the representation to which they are entitled in a democratic society;

Therefore, I pledge that if elected I will advocate for:

a) changes to provincial legislation to enable local governments, if they so choose, to adopt a system of equal effective votes and proportional representation for their municipal elections.

b) all civic governments to adopt a system of equal effective votes and proportional representation.
